VXI Corporation Announces New Additions to Strengthen Management Team

Rollinsford, NH. January 13, 2009- The VXI Corporation, a leading provider of professional headset solutions, announced two new additions to their senior management team.

With over 30 years of operations experience, Philip J. Pane takes over the position of Vice President of Operations. Prior to VXI, Mr. Pane served as the Operations and Plant Manager for GN Netcom, providing overall supervision of the U.S. manufacturing, after market service operations and regional fulfillment. Prior to GN Netcom, Mr. Pane was the General Manager for Visual Computer Sales and Service, an independently owned business providing sales, service and repair for global customers.

"I am pleased to join VXI's dynamic team at such an important time in the company's history. This is a wonderful opportunity for me to bring my industry experience and skills to contribute to the rapid growth of this great organization," said Pane.

VXI Corporation also announced the appointment of Shawn Pasternak to the position of Vice President of Engineering. Mr. Pasternak comes to VXI with over 16 years in the audio products industry including 12 years of professional management experience and 10 years of acoustic product design and development. Most recently, Mr. Pasternak served as the Engineering Manager of Solteras developing headsets and Bluetooth hands free solutions for top tier customers. Prior to Solteras, Mr. Pasternak was the Director of Engineering for Anchor Audio, Inc.

"I believe VXI is an incredibly exciting company positioned to take advantage of substantial opportunities in the years ahead. In my new role, I look forward to leading VXI's engineering team to introduce new products that both complement and advance our well established and respected product base," said Pasternak.

"I am thrilled that these positions have been filled with such qualified and outstanding veterans. Both are skilled leaders who will help take us to the next level of our organization's future growth," said Mike Ferguson, President and CEO of VXI Corporation.
