

# BlueParrott B250-XTS

## How do I clean my BlueParrott headset?

Keep your headset clean by following these best practices for hygiene.

1. Apply normal dish soap and water to a cloth, making sure to wring out excess liquid so the cloth is not dripping wet. Use soap and water only – do not use strong cleaning agents.
2. Gently wipe the headset, making sure there is not a layer of suds on the surface.
3. Let it rest for at least one minute.
4. Rinse the surface by wiping it with a slightly damp cloth using water only.
5. Let it dry.
6. When the headset is not in use, keep it clean by avoiding contact with dirty surfaces.
