BlueParrott S650-XT

How do I customize the BlueParrott Button™ using the BlueParrott Updater?

Prerequisites

- BlueParrott Updater

To program the BlueParrott Button™ using BlueParrott Updater, follow these steps.

1. Open BlueParrott Updater.
2. Connect your BlueParrott headset to your computer via USB cable.
3. Click **Configure**.
4. In the new window, select your preferred setting and click **Save**.

Note:

The BlueParrott Button™ is configured to mute out-of-the-box and will mute the microphone while both off or on a call.
