

BlueParrott S650-XT

How do I charge my BlueParrott S650-XT/B650-XT?

You can charge your BlueParrott S650-XT/B650-XT using the supplied USB charging cable. It takes approximately 3 hours and 20 minutes to fully charge the battery. When your headset is fully charged, you get up to 36 hours of talk time and 90 hours of stand-by time.

Charge using the USB charging cable

Plug the USB charging cable into the USB-C charging port on the left earcup and an available USB port on your computer or wall charger. We recommend you use the supplied Jabra charging cable, although it is possible to use a compatible charger.

While charging, the LED indicator shows the charging status. Red indicates the headset is charging. Blue indicates the headset is fully charged.
